Orders No. 4.

We have now entered
the Country of our enemies, the Snake Indians,
a barbarous and treacherous people, and
therefore the utmost vigilance and caution
is required to guard against a surprise
or the loss of animals.

This command, exclusive of the sick
and those excused from details, will be
divided into five detachments for guard.

service only, each as far as practicable to be composed of members of the same Company who will alternately do the necessary guard duty.

Each Detachment during its tour will be under the command of the Officer of the Day. The tour will commence, when on the march, in the morning, as the advanced guard, when the Officer of the Day with his guard will precede the command at a considerable distance, to reconnoitre the road, carefully examining the way for indications of the presence of Indians to select if necessary suitable places to encamp at the distances which will be prescribed and to throw out Scouts, some distance in advance of the camping ground to observe from eminences, if practicable, if there be any indications of an enemy. The Scouts will remain out scattered if possible, to observe the approaches until the Camp Guard

has arrived in Camp, or the darkness prevents further observation. The advanced guard will compose the Camp Guard, ^{your} Head Quarter guard with the addition of ^{your} Head Quarter Master men during the night, and the Head Quarter Guard on the following day. When not on route the tour will commence in the evening, and terminate the following day evening. The advanced guard will habitually march with a Head Quarter Officer and file of men, in advance of any one hundred yards, of the main party.

The fire arms of the command will be kept loaded and at all times ready for service, there will be daily an inspection of the arms before sunset.

Private Roger Clayton of S.C.S. Artillery and Private William Wilson & Maurice Moore of S.C.S. Artillery are selected as a forced party, who, with the Head Quarter, will be on duty with the Head Quarter. The Lake Indian Prisoners will heretofore

be strictly guarded. They will be placed in charge of the Camp Guard by night and day; when en route they will march with the Bear guard. The Sub-Comd Officer commanding the Camp guard, will during his tour be held accountable for the safety and proper treatment of his captives. Information has been given of press abuses, being inflicted on these unfortunate people, and it is announced that the most summary punishment will follow the repetition of any abuse.

In case of any alarm the Trains will close up and to the right, so as to give place in the road for any movements of Troops, or pieces-men. In case of an attack, it will be most probably by firing from a great distance, and from a height, in which case the officer in command, either in front or rear, nearest the enemy, will detach a small party of skirmishers to return their fire and draw them off. The main body of the Troops, if not under the fire will place themselves in close order

and await orders. The 7th 3rd M. will give the necessary orders to his men in order to prevent stampedes in his trains. During the firing

1st Lieut. 4th Inf.
Batt. 1st,

Head Quarter Minnesota Expedition
Camp at massacre ground. Fort Boise,
July. 18th. 1850.

Orders. No. 6.

I. Before a military Commission
of which Capt. David A. Russell, 4th Inf. is President,
and which convened in Camp at Fort Boise,
yesterday, pursuant to Order. No. 5, current
order, the following names Indian warriors
of the Win-ne-to tribe, viz.: Bushel, Sambigud,
Wabo, and Pambouya, were tried
each one on the following accusation,
to wit:

Being present at, and having in some
degree participated in the massacre of
Immigrants which took place on
Boise River on the 30th. August. 1834,
1st To this charge: the first Bushel
pleaded as follows, "Guilty and acknowledging
having killed one of the murdered party,"
2nd The second Sambigud, pleaded
that he was present at the massacre

he had no weapon but rode about yelling and whooping.

3rd. The third, Warbe, pleaded "Guilty" & went on to state that he was at the fight and fired two shots with a gun &c.

The Court in each of the above three cases of Beesheep, Sambigud, and Warbe, after mature deliberation, finds them each and separately "Guilty of participating directly in the massacre."

4th. In the fourth case that of Sambouya, the accused pleaded "that he was present at the massacre and rode about on horseback &c."

The commission after mature deliberation finds the accused Sambouya "Guilty of participating in the massacre."

II. The proceedings and findings in the foregoing cases of the Winneto warriors, Beesheep, Sambigud, Warbe, and Sambouya are approved.

During the deliberations of the

commission with closed doors, the Prisoner Beesheep attempted to make his escape, which cost him his life. The promptness and accuracy of the shot of Sgt. Killbuck of Company G, 4th. Infantry, deserves commendation.

The guilt of these warriors having been established beyond a doubt, it becoming the painful duty of the Commanding Officer to see his own instructions conveyed in a letter from the Commanding Officer of the Columbia River & Puget Sound District, dated June 21st, 1854, carried out and he accordingly directs that Sambigud, Warbe, and Sambouya will be taken out at or soon after sundown, to the grave of the massacred Immigrants at which a gallows has been erected, and there be hung by the neck and left hanging, as a warning to others, until after sunrise.

A signal will be given at which the Troops will march with full arm, when all, but the sentinels on Post will be marched to the spot to witness the spectacle. The men who can be spared in the employ of the A. S. G. M. will also attend in two ranks and take their place on the left of the Troops.

It is expected that the utmost decorum will prevail at the execution of these unfortunate warriors, who, (although their people have shown the utmost barbarity towards their victims, and desired death,) ~~but~~ ^{as} are executed as an example in hopes it will prevent other murders, and not from the instinct of revenge. The poor Indian's ^{acts} cannot and should not be ~~judged~~ ^{judged} by the standard of the civilized and Christianized nations of the Earth.
